

Starting at
\$34⁹⁹ /Gallon

Industrial Maintenance Coatings, DTM Acrylic Enamel technology is made up of DTM primers and topcoats that can accommodate a wide variety of light to moderate industrial applications, such as new construction, equipment, safety, and general maintenance. Industrial Maintenance Coatings can be used directly over an assortment of properly prepared substrates while offering an excellent protective coating.

RECOMMENDED USE

- Ornamental Iron
- Tanks & cylinders
- Steel fabricated parts
- Equipment
- Machinery
- Metal Buildings
- Select marine structures
- Piping
- Hand Rails

SUITABLE SUBSTRATES

- Steel
- Iron
- Aluminum
- Galvanized Steel
- Concrete
- Masonry
- Wood
- Zinc rich primers
- Cement Board
- Fiber Board

For use over prepared substrates in industrial environments.
